## PRODUCT DESCRIPTION

### ELONGATED HARDWIRED TABLE LIGHT

### Product Description

The **Elongated Hardwired Table Light** combines refined proportions, solid materials and understated industrial styling to create a distinctive architectural lighting feature for desks, consoles, sideboards and bespoke furniture.

Featuring a beautifully elongated **brass light bar**, the fitting is supported by two contrasting black metal uprights, creating a clean linear silhouette with a contemporary yet timeless character. The gently rounded profile of the brass body adds softness to the otherwise architectural design, while the exposed construction gives the fitting an authentic handcrafted feel.

Designed as a **hardwired table light**, this fitting is particularly well suited to high-end residential interiors, hospitality projects, commercial spaces and bespoke furniture installations where a more permanent lighting solution is required.

The combination of warm brass and black metal allows the light to work equally well within **modern, industrial, mid-century and traditional interiors**, making it a versatile statement piece without being overly decorative.

## Key Features

- Elongated architectural table light design
- Warm brass light bar with a softly rounded profile
- Contrasting black metal support posts and bases
- Hardwired installation for a clean, integrated finish
- Ideal for desks, consoles, sideboards and bespoke furniture
- Suitable for residential, hospitality and commercial interiors
- Designed to provide a distinctive linear lighting feature
- A timeless combination of brass and black metal

## Specification

**Product:** Elongated Hardwired Table Light
**Construction:** Metal
**Finish:** Brass with black metal supports
**Installation:** Hardwired

**Style:** Contemporary / Architectural / Industrial

## A Statement in Linear Lighting

With its elongated form and carefully balanced combination of brass and black metal, the Elongated Hardwired Table Light is designed to be more than simply a source of illumination. Its strong horizontal profile creates a sophisticated architectural detail while providing a practical lighting solution for furniture and interior applications.

**Please contact us for available dimensions, lamp holder specifications, electrical requirements and bespoke finish options.**

**Please note - product colour variances**

**Due to quality variances between different monitors and the use of studio lights, the colour that appears on your screen may differ from the physical product. Please be aware of this when ordering.**
