PRODUCT DESCRIPTION

The Aluminium Linear Wall Light is a striking sculptural wall light that sits at the intersection of design and art, attracting attention even when the light is switched off. Its standout feature is the natural yet decorative surface of the sand-cast aluminium, created using a traditional sand-casting technique.

The resulting irregularities and subtle grooves give the aluminium Linear wall light a unique, organic texture that evokes a riverbed carved by water.

A vertical fluorescent tube light source gently highlights this artistic aluminium form when illuminated.

Designed for versatile installation, the Aluminium Linear Wall Light can be mounted both vertically and horizontally. With an IP44 rating, this aluminium wall light is suitable for damp environments such as bathrooms, covered outdoor areas, and other moisture-prone spaces.

- **Recommended light source:** LED S14D tube with central mounting, 50 cm in length, max.

20W LED* (light source not included).

Please note - product colour variances

Due to quality variances between different monitors and the use of studio lights, the colour that appears on your screen may differ from the physical product. Please be aware of this when ordering.

E2 Contract Lighting specialises in the manufacture of bespoke lighting solutions for our clients. If you can't find what you need on our website. Contact our [Sales Team](#) who will work with you to create your ideal contract lighting solution.

Please note that this product is manufactured to order. Our current lead times mean that this product will be out for delivery 4 weeks after payment is confirmed. In the event that you wish to return this item, our made to order products are subject to a minimum 30% return fee. See our [Returns](#) page for more detail.
