PRODUCT DESCRIPTION

This pendant light fitting features a mid-century modern design with a sculptural twist. It includes multiple opal white glass globes arranged asymmetrically on a central frame, finished in antique brass. The frosted globes provide a soft, diffused light, making this chandelier ideal for creating a warm and inviting atmosphere in dining areas, living rooms, or entrance halls. The vintage-inspired brass chain adds character and complements both modern and retro interiors. Stylish, bold, and functional — a statement piece for any space.
